FINANCIAL ASSISTANCE

Our Mission
The Student Financial Assistance Office (SFA) assists families with understanding college costs at Missouri University of Science and Technology. Our team facilitates access to federal, state, institutional and private financial resources and coordinates access to university scholarship and loan awards for our students, while adhering to NASFAA's statement of ethical principles.

The SFA Office continually strives to provide high quality service to all students, families, faculty, staff, alumni and other interested parties. Our team works to meet campus strategic goals through financial aid administration, community outreach, financial literacy and debt counseling programs.

Financial Aid Opportunities
Missouri S&T has many ways for you to apply for financial assistance. New freshman and transfer applicants must complete the Missouri S&T undergraduate application for admission and entering merit scholarships and be accepted to the university by appropriate deadlines for scholarship consideration.

For other financial aid (grants, loans, work-study), you must complete a Free Application for Federal Student Aid (FAFSA). Preference will be given to those students whose FAFSA has been received by February 1. If you apply at any other time of the year, Missouri S&T will attempt to fill your financial needs to the extent funds or opportunities are available. Missouri's need-based Access Missouri scholarship requires FAFSA submission by February 1. Federal and state aid are contingent upon students meeting satisfactory academic progress (SAP).

Student financial assistance begins generating financial aid packages by early March. A detailed list of financial aid can be found on our website https://sfa.mst.edu/financial-aid/. Please contact the student financial assistance office for more detailed information.

Completing the FAFSA provides access to federal and state financial aid including grants, loans, and work study. Non-need based campus jobs are listed on Handshake (https://career.mst.edu/handshake). In the cooperative (co-op) training program, you can alternate semesters of school at Missouri S&T with semesters of work in industry. In addition, Army (https://armyrotc.mst.edu) and Air Force (https://afrotc.mst.edu) ROTC each offer scholarships. If you are interested in varsity athletics, the athletic department may offer grants in various sports.

Satisfactory Academic Progress Policy
To receive federal financial aid, students must be eligible to enroll in an academic program that leads to a degree or certificate program associated with a degree program and must meet satisfactory academic progress (SAP) per federal financial aid guidelines and per Missouri University of Science and Technology policy.

Missouri S&T has established the following definition of SAP:

• Meeting a minimum cumulative grade point average requirement (GPA).
• Earning a minimum number of credit hours each semester (semester progress).

• Completing the degree objective within a maximum number of attempted credits (maximum time allowance).

Cumulative Grade Point Average (GPA) Requirement:
• Undergraduate students with 59 or fewer credit hours must have a 1.67 cumulative GPA.
• Undergraduate students with 60 credit hours or more must have a 2.00 cumulative GPA.

Semester Progress Requirements:
• Students must complete a minimum of 75% of attempted coursework.
• Undergraduate students who attempt at least 6 credit hours, and graduate students who attempt at least 4 credit hours during the semester, are expected to complete at least 1 credit hour during the semester. Students who have attempted these minimum hours and who do not complete at least 1 credit hour will be suspended immediately from future aid.
• Completing a course with an "F", "WD" (withdraw), "DL" (delayed grade), "I" (incomplete) or switching to Hearer (Audit) Status or another failure to receive a letter grade will be considered as not having satisfactorily completed a course.

Maximum Time Allowance: Students must complete their degree program within 150 percent of the semester hours required for that degree. Calculations are performed on attempted hours, not completed hours. Examples:
• The Bachelor of Art in History requires 120 credit hours. Students must complete this degree before they have attempted 180 credit hours (120 hours * 150%), or their aid will be suspended.
• The Bachelor of Science in Chemical Engineering requires 129 credit hours. Students must complete this degree before they have attempted 193.5 hours (129 * 150%), or their aid will be suspended.

Each program requirement may differ and students should review the course catalog http://catalog.mst.edu/#text to determine the number of credit hours required for their degree.

Transfer students will be evaluated for scholarships based on their cumulative GPA from all previously attempted college-level credit.
