STUDENT WELL-BEING

Mission Statement: Student Well-Being provides counseling services, health promotion initiatives, and prevention programs to empower the S&T community to thrive and enhance personal, academic, and professional success.

Meet our staff at https://wellbeing.mst.edu/more/about-us/, and see a general overview of our services at https://wellbeing.mst.edu/services/.

Student Well-Being operates utilizing the Personalized Care Model (https://wellbeing.mst.edu/care-model/), a framework developed within the department to ensure that all students seeking services are accessing the support that is most beneficial to their needs and concerns. If a student is seeking support and is unsure of the best next step, they can schedule a 20 minute screening appointment with a licensed counselor who will listen to the student’s concerns and help determine what services and resources are the best fit. Screenings can be scheduled by visiting the student health patient portal (https://studenthealth.mst.edu/), calling 573-341-4211, or visiting 204 Norwood Hall.
