

EDUCATIONAL GOALS OF MISSOURI S&T

Missouri University of Science and Technology's mission is to integrate education, research and application to create and convey knowledge that serves our state and helps solve the world's great challenges. In a world growing increasingly dependent on science and technology, tomorrow's graduates must be prepared to lead beyond their chosen professions. They must also be leaders in business, in government, in education and in all aspects of society. Missouri S&T is dedicated to providing leadership opportunities for its students. Missouri S&T provides a full range of engineering and science degrees, coupled with business and liberal arts degrees and programs that are vital to the educational experience, regardless of major.

Missouri S&T is nationally recognized for its excellence in engineering and science education and research, and is distinguished for producing important research and key technologies vital to the economic success of Missouri and the nation. Missouri S&T's distinguished faculty is dedicated to the teaching, research and creative activities necessary for scholarly learning experiences and advancements to the frontiers of knowledge. The university's excellent physical facilities support the best possible education in the liberal arts, humanities, engineering, science, applied science and selected interrelated fields.

Missouri S&T's programs in science, engineering and business, its technology transfer programs, its leadership opportunities, and its learning environment are all integral parts of the total educational package available.

Mission Statement

Missouri S&T integrates education, research and application to create and convey knowledge that serves our state and helps solve the world's great challenges.

Vision

Missouri S&T will be the leading public technological research university for discovery, creativity and innovation.
