---

## ERP 2110 Introduction to Enterprise Resource Planning (LEC 3.0)

Fundamentals of enterprise resource planning (ERP) systems concepts, and the importance of integrated information systems in an organization. The focus of this course is on illustrating procurement, production, and sales business processes using ERP software. Use of SAP as an example ERP system. Prerequisite: IS&T 1750.

## ERP 5130 ERP in Small & Mid-Size Enterprises (LEC 3.0)

Provides an overview of enterprise applications for small and midsize companies. A leading platform such as Microsoft Dynamics AX or SAP Business One is introduced to illustrate theories and practical enterprise-wide applications for entrepreneurs, who manage business functions across sales, operation, and financials, all in a single integrated system. Prerequisites: ERP 5110 or ERP 2110.

## ERP 5210 Performance Dashboard, Scorecard and Data Visualization (LEC 3.0)

This course studies performance visualization management systems including dashboards, Balanced Scorecard, and strategy maps in an organization. SAP's HANA Platform, Predictive Analytics, Tableau, and Power BI are used to develop the dashboard applications. Prerequisite: ERP 2110 or preceded or accompanied by ERP 5110.

## ERP 5240 Enterprise Application Development and Software Security (LEC 3.0)

This course provides a conceptual foundation and hands on experience in web and mobile based (HTML5) applications development deployed through an enterprise platform. Enterprise development tools, such as SAP HANA Cloud Platform, will be used to build these apps. The course also covers software cybersecurity from a web and mobile perspective. Prerequisites: Programming knowledge and either ERP 2110 or preceded or accompanied by ERP 5110.

## ERP 5310 Supply Chain Management Systems in an ERP Environment (LEC 3.0)

The course studies the need for supply chain integration and the challenges of managing complex interfaces using the systems approach for the planning, analysis, design, development, and evaluation of supply chain. SAP's ERP ECC, SCM, BW, and Sybase Unwired Platform are used to deploy SCM apps. Prerequisite: ERP 2110 or preceded or accompanied by ERP 5110.

## ERP 5410 Use of Business Intelligence (LEC 3.0)

This course introduces data-oriented techniques for business intelligence. Topics include Business Intelligence architecture, Business Analytics, and Enterprise Reporting. SAP Business Information Warehouse, Business Objects, or similar tools will be used to access and present data, generate reports, and perform analysis. Prerequisites: IS&T 1750 or equivalent.

## ERP 5510 ERP System Administration (LEC 3.0)

System administration and performance monitoring practices for an Enterprise Resource Planning (ERP) system will be studied. Students will install an instance of an ERP system and establish user management attributes and system security. Prerequisite: ERP 5110.
