

STUDENT VETERANS RESOURCE CENTER

The Student Veterans Resource Center (SVRC) is designed to empower and educate all student veterans/military on utilizing the campus tools and resources to be successful students. The SVRC was developed as a campus wide initiative dedicated to our student veterans by providing a comfortable and resourceful study area; veterans' consuls; peer mentors; knowledgeable and caring staff; effective programs and events; and an approachable advisor who is supportive of student success for all veterans on the S&T campus.

Veterans' Consuls are a selected group of student leaders assisting the Student Veterans Resource Center with duties including planning and executing success programs; developing success plans for students; serving as a mentor for current students; and referring students to resources.
