MINORS

You can elect to combine a recognized minor program with your bachelor of arts or bachelor of science degree programs in the following areas:

- adaptive leadership
- aerospace engineering
- American studies
- applied mathematics
- art
- artificial intelligence and machine learning in business
- automation engineering
- bioinformatics
- biological sciences
- biomedical engineering
- business
- business analytics and data science
- business applications and software development
- chemistry
- cognitive neuroscience
- communication studies
- computer engineering
- computer science
- construction engineering & management
- creative writing
- cybersecurity management and information assurance
- digital supply chain management
- electrical engineering
- electronic and social commerce
- energy technology
- engineering management
- enterprise resource planning
- entrepreneurship
- ethics
- explosives engineering
- film and literature
- finance
- financial technology, analytics and transformation
- French
- games studies
- geological engineering
- geology
- global studies
- global sustainable economics
- history
- human-computer interaction and user experience
- human factors psychology
- industrial/organizational psychology
- information science & technology
- international economics
- Latin American studies for technical applications

[Hypertext links to corresponding degree programs and courses on the university's catalog website are included for each minor and major listed above.]
